TOLI International Environmental Policy Statement

TOLI International shares a strong sense of responsibility to the environment in which we live and work; and supports the responsible stewardship of resources including air, water, the earth and its inhabitants.

TOLI EcoSpirit™ supports environmental responsibility and consciousness throughout the global TOLI family. We proudly strive to reduce waste, limit the consumption of natural resources and protect our earth's environment for future generations.

TOLI will:

Support the principle that sound environmental practices are socially responsible and important for sustainable business development and growth.

Conduct its business in a responsible manner designed to protect the environment and the health and safety of employees, customers, and the public, by complying with all applicable laws and regulations.

Train its employees in environmental, and health and safety responsibilities.

Promote environmental awareness among its employees, customers and the public.

Look for new, creative and effective ways to reduce, re-use and recycle to protect and preserve the environment.

Minimize the production of waste and promote programs that support our customers' pollution prevention activities.

TOLI International's complete Environmental Policy is available at www.toli.com

TOLI International

div. of CBC (America) Corp.

ISO 9001:2000 Certified

ISO 14001:2004 Certified

US Green Building Council Member

ISO 9001:2000 certification insures that TOLI flooring products achieve standards of quality that are recognized and respected throughout the world. This certification recognizes TOLI's respect for our customers and our commitment to product quality.

ISO 14001:2004 certification recognizes TOLI's commitment to the air, water, earth and wildlife by operating in an environmentally responsible manner.

TOLI flooring products meet the guidelines of the US Green Building Council for high performance sustainable products with reduced environmental impact.
